

Mystery-game: Sustainable Nutrition

METHOD PATTERN

- ① Any number of riddle questions
- ② Students get the opportunity to find information → range of openness
- ③ Trying to find a solution → group work/ plenum
- ④ **Reflection/ discussion**

SCENARIO: SUSTAINABLE NUTRITION

- ① 4 riddle questions
- ② Information board: Padlet
- ③ Group work: 4 groups, 1 question each
- ④ Group puzzle

Eat the rainbow - Why
sunshine in winter doesn't
always mean good things
are on the horizon

Exchanging the green
lung for green gold
takes people's breath
away worldwide.

Even if Simon eats 9
bananas, on average
only 6 of them end
up in his stomach.

When Andi turns crooked
things, not only his guests are
happy, but also the
environment. After all, his
potato salad is the best far
and wide!
