### **Babrunn should remain liveable**

The municipality of Babrunn is surrounded by beautiful nature that invites you to linger. Around 7000 inhabitants from young to old live in the municipality.

The village has been around for a long time, in the past the inhabitants lived from agriculture, today there are only 2 farms left. Many people from Babrunn travel to work in the nearest larger town, which is 15 km away.

There is a kindergarten and an elementary school in the municipality, but children also have to travel to the town for secondary school. A special feature of the municipality of Babrunn is the municipal forest, which is located at the entrance to the village. The mixed forest with many old trees is home to many different animal and plant species. One part of the forest is a "school forest", in and with which the primary school children of Babrunn learn about the forest habitat.

An investor from the city would now like to build a water park with over 20 slides, wave pool, diving park and water bouncy castles next to the community of Babrunn. However, a large section of the community forest and the entire school forest would have to be felled to make room for the large swimming and fun pools.

### **What should happen next?**

You will now be assigned a **role**. Try to **put** yourself in this role.

In addition to the role cards, you will be given an **iPad** with which you can **read** things on a padlet.

**Try to think as the person on your role card.**

You will then **discuss** with 3 other classmates what should happen to Babrunn.

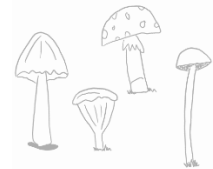

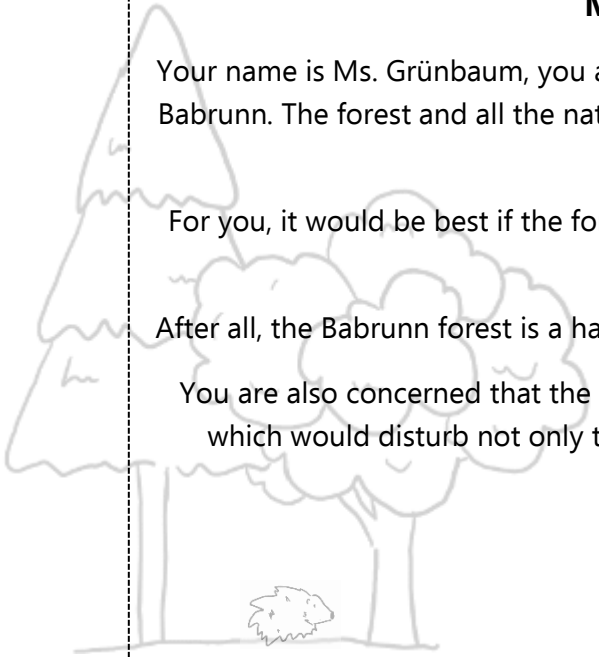

### **Ms. Grünbaum**

Your name is Ms. Grünbaum, you are a nature and environmental conservationist in Babrunn. The forest and all the nature around the community are very important to you.

For you, it would be best if the forest remained untouched and no water park was built.

After all, the Babrunn forest is a habitat for many different animal and plant species.

You are also concerned that the noise pollution from bathers could be too high, which would disturb not only the animals but also the residents of Babrunn.

After all, the Babrunn forest is a habitat for many different animal and plant species.

You are also concerned that the noise pollution from bathers could be too high, which would disturb not only the animals but also the residents of Babrunn.

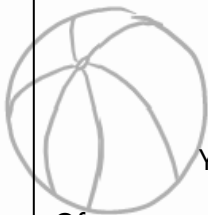

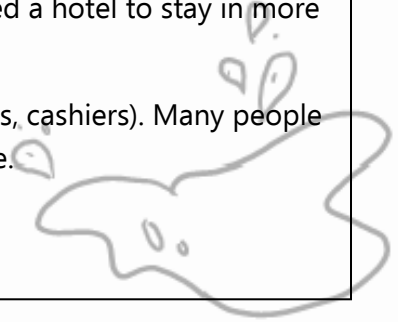

### **Ms. Aquatoll**

You are Ms. Aquatoll, the boss of the new Babrunn water park.

Of course you want to realize your plans and open the water park with over 20 water slides, wave pool, diving park and water bouncy castles next to the village of Babrunn.

You think the water park will attract tourists from all over Germany and Babrunn will earn money from the entrance fees. With the new attraction, more people will come to the restaurants in the municipality and will certainly need a hotel to stay in more often.

The new water park also needs a lot of new staff (lifeguards, cashiers). Many people from Babrunn could find work here.

The new water park also needs a lot of new staff (lifeguards, cashiers). Many people from Babrunn could find work here.

### **Ms. Fröhlich**

Your name is Ms. Fröhlich, you are here as a representative of the Babrunn Citizens' Association. You care about everything that concerns social and community issues in the municipality.

The most important thing for you is that the community gets a new leisure facility. You believe that the water park is a leisure facility for many families and would make the children of Babrunn especially happy.

The water park would also help the community's club life, as the swimming club would finally have a place to train again.

The water park would also help the community's club life, as the swimming club would finally have a place to train again.

### **Ms. Schlicht**

You are Ms. Schlicht, the mayor of the municipality of Babrunn.

The most important thing for you is that everyone gets along with each other.

During the discussion, your main task is to moderate the discussion.

You are welcome to listen to the opinions of the other members of the municipal council in preparation.

You make sure that everyone has their say and can put forward their arguments.

If you get stuck, it is your job to ask the teacher for help.

### **Mr. Schlicht**

You are Mr. Schlicht, the mayor of the municipality of Babrunn.

If you get stuck, it is your job to ask the teacher for help.

## **Name of the role**

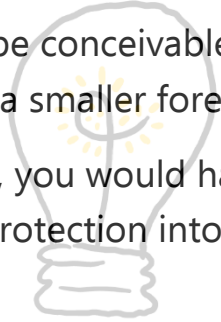

Fundamental values; convictions; position in the structure

Ideal conception

Argument 1

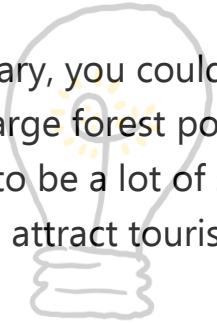

Argument 2

It would be conceivable for you to build a smaller forest pool. However, you would have to take noise protection into account.

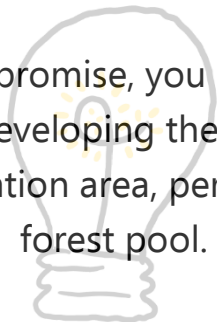

Ms./ Mr. Grünbaum

If necessary, you could imagine building a large forest pool. But there would have to be a lot of special offers to attract tourists.

Ms./ Mr. Aquatoll

As a compromise, you could also imagine developing the forest as a local recreation area, perhaps with a forest pool.

Ms./ Mr. Fröhlich
