My vision for a sustainable school is...

- a school for all;
- a place where everyone feels welcome, happy and part of the school project;
- where you promote volunteering, nature protection, human rights, peace and security;
- where you prepare good citizens for a better world.

Remember that your goals
should be linked with
Sustainability Citizenship.

My Green Action Plan, formulated SMART:

Specific

- “Sustainable water management:
 - reuse of the water used in the horses’ showers for irrigating the riding arena using solar energy;
 - for other showers;
 - to clean the stables.”

Measurable
“Water saving levels”

Icons of the Sustainable Development Goals can be found in slide 5

My Green Action Plan, formulated SMART:

Achievable

Motivate teachers, students and people in general to protect the environment by example;
Help change mindsets, forming concerned and critical citizens.

Realistic

"This project helps our school solving a lack of water problem."

Time-bound

- September 2025: implementation of the system
- Evaluation of the plan: July 2026 and onwards...

Icons of the Sustainable
Development Goals can be
found in slide 5
