

Welcome everyone. Let's Take a Look at AI

Don't worry, everything you say will be totally anonymous

Course expectation - anonymous survey

As a school leader I am here

Course expectation - anonymous survey

What do you already know about AI in your school setting?

its experimental. Only some teachers using it.

AI is a useful tool for pupils with special needs and learning difficulties.

MagicSchool Suno
ChatBox ChatGPT
Canva

Teachers are using it already

I know Secondary uses it, Primary not so much

Many teachers afraid to use it - don't know how to use the prompts currently

We are learning and becoming more skilled and confident to use AI.

very little things.

Course expectation - anonymous survey

What do you already know about AI in your school setting?

Could be more cohesive across all classes and standards - would be good to have an aligned strategy

I know that we are working with the children to provide opportunities to make their lives easier

AI can be utilised to make learning more personalised for pupils. Eg. Text - Audio Audio- Text Simplifying large quantities of text

I know how to use it to help me with berocracy. I also afraid we have problem use it the right way

We are exploring the possibilities, quite a positive attitude towards it. Yet awareness and discussions about how to apply it and what data to share are being held.

Not being used to our advantage at all. People almost feel like they're cheating using it.

It is often done on a classroom by classroom basis as teachers use their own favourites. We would share ideas but dont have an overarching approach.

I am trying to create a policy and have tried to share with IB students how to use responsibly. would love help with this :)

What do you already know about AI in your school setting?

children soooooo interested in learning to use it. Can't believe they're allowed to use it

Teachers are using it in their classes as a resource.

We find tips and tricks merchants want to deliver through us but no discussion around bigger ideas behind AI

What people want What people fear How they use it

It's fantastic. We are having great fun as a staff using it to make life easier for ourselves. Creating lessons and we even created our summer play on ChatGBT. Remake of Grease

Used to speed up admin/paper work

We have AI workshops for teachers and we encourage kids to work with AI. We do have internal AI system with our subjects/competencies pre-uploaded in it. Teachers use AI to prepare lessons etc

It's important for teachers to handle with these AI tools. The teching process becomes more interesting and it is always unique!

Course expectation - anonymous survey

What do you already know about AI in your school setting?

A useful tool

Using the AI4EDU platform, teachers use the Teacher Mate to help teach their pupils and pupils use Study Buddy to make learning fun and engaging.

its limited at times... can't add music/ images

If you could get AI to do ONE thing for you as a school leader what would it be?

Emails

Answer parent emails

Help me do the
bureaucracy faster

keep track of what I'm covering
/ not covering and complete my
tasks / tell me what I
need to schedule in/ how I
could schedule it into the
remaining time in the week /
month

Help me finish the
bureaucracy sooner

Help pupils to achieve
their goals

Help me handle boring
routine paperwork

Bureaucratic tasks

If you could get AI to do ONE thing for you as a school leader what would it be?

Manage misbehaviours

Help teachers make their own plans and lessons in line with the curriculum school plans.

Policies and circulars

Analyse data

Summarise large documents/ circulars for me.

To make all the bureaucracy work so I will have time to do creative things for the school

Personal assistant, tedious tasks

Preparation of documents

If you could get AI to do ONE thing for you as a school leader what would it be?

To give me a solution I
can't think of

Simplify school planning
for teachers

Map teacher wishes and
problems

Design personalized
lesson plans

Take over my financial
administration

Deal with difficult
parents
