

Sticky notes – brain storm

School Heads/ July 2025 / Summer School

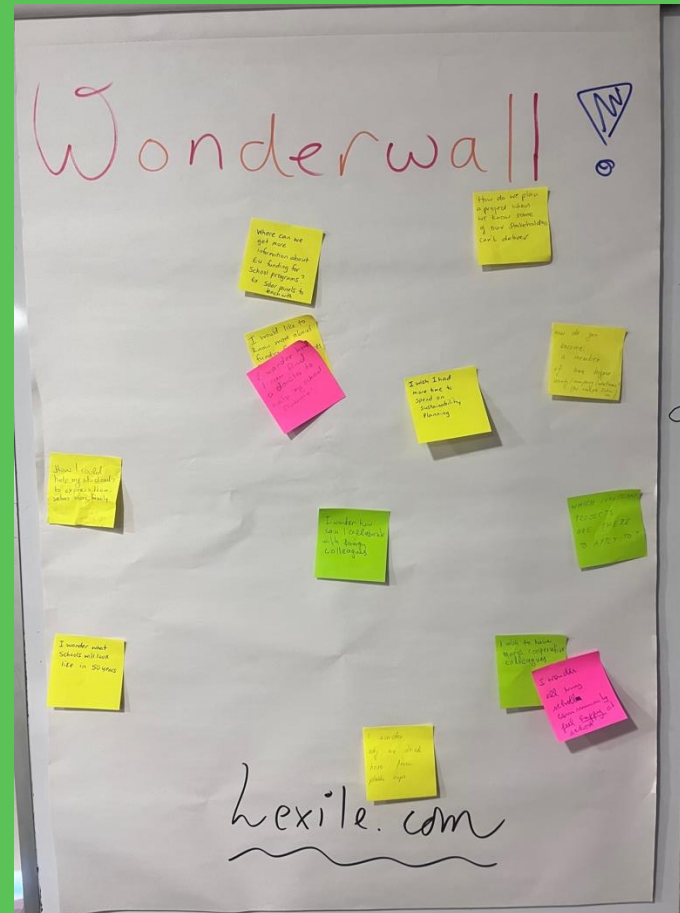

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

**Co-funded by
the European Union**

Wonderwall

Close ups in next slide

I wonder
why we drink
here from
plastic cups

I wish I had
more time to
spend on
sustainability
planning.

Past: like a machine
now: like a miracle
future: like a tool

WHICH EUROPEAN
PROJECTS
ARE THERE
TO APPLY TO?

Where can we
get more
information about
Eu funding for
School programs?
Ex. Solar panels to
teach with.

I wonder what
Schools will look
like in 50 years.

I wish to have
more cooperative
colleagues

I wonder
all my
school
community
feel happy at
school.

How do we plan
a project when
we know some
of our stakeholders
can't deliver

I would like to
know more about
funding for
sustainable projects
so that we have
full control of how
we do things

How I could
help my students
to express them-
selves more freely.

How do you
become
a member
of some bigger
society/company/whatever?
(for example Esha
etc.)

I wonder how
can I collaborate
with foreign
colleagues

I wonder how
I can find
a donor to
help my school
financially.

Learn to respect each other, diversity, people with disabilities

Everyone has equal rights

Volunteering - help people

Have values 2

Democracy

Protect environment

Help

we need to teach by being examples/role models

- IB - is a great program for this - global citizens
- To give options for the students to see other countries ~~and~~ ~~and~~ ~~to~~ get different kind of experiences.

Learn to respect each other, diversity, people with disabilities

Everyone has equal rights

Volunteering - help people

Have values 2

Democracy

Protect environment

Help

we need to teach by being examples/role models

- IB - is a great program for this - global citizens
- To give options for the students to see other countries ~~and~~ ~~and~~ ~~to~~ get different kind of experiences

Examples (headteachers, teachers, team)

- Student council gives students autonomy and organize things they find relevant
- Build a strong community (events, parties, workshops)
- Competences

friendship

development - recycling program ✓ Agree!

social skills

Education for human rights and discipline/duties

I wish to help my students become very useful citizens.

my st become citize

- Examples (headteachers, teachers, team)
- Student council gives students autonomy and organize things they find relevant
- Build a strong community (events, parties, workshops)
- Competences

→ also very important

Active citizenship

- ⇒ Sustainable development - recycling program ✓ Agree!
- Saving energy
- Empathy
- Communication
- Cooperation
- ⇒ Social skills
- Education for human rights and discipline/duties

- Communication is the key to motivation.
- Your team feels the leader's excitement.
- First step → to create a good team. Everyone is engaged
- Motivation is very important for all staff

- Some countries give no motivation but personal fulfillment.
- ~~Some~~ Most of the teacher are old, tired and just of you doing things...

- Some countries give no motivation but personal fulfillment
- Most of the teacher are old, tired and just of you doing things...

* Show them projects that are already happening to inspire them - Love this idea :) They some times feel jealous or threatened

* Show them projects that are already happening to inspire them - Love this idea :) They some times feel jealous or threatened

* Show them the bigger picture (overview / why are we doing what are we doing)

* Hold workshops about the new topics - guest speakers

* Cooperations with other schools - So true!
↳ but they feel pressure

How do you get your team excited about new topic / change / new project?

I wish I could give motivation to the teachers in order to help me organise the schools' actions

organise schools' actions

Capability to make changes and accept the new ideas.

Pupil-centered education.

Making interesting actions - creating new projects appealing to all members

- We also have these questions and would love the answers - or where to look.

- Asking our parent community for sponsors - more difficult in a private school.

- It is very time consuming - that is why many don't do it.

- Asking our parent community for sponsors - more difficult in a private school.

- It is very time consuming - that is why many don't do it.

fund raising (engaging local community)
participation in european projects
municipality
parents association
donation
sponsors
bazaar etc.

fund raising (engaging local community)
participation in european projects
municipality
parents association
donation
sponsors
bazaar etc.

Church helps sometimes
local community - sponsors
Some governments - etc.

Where can
you get
funding?
(new equipment,
labs etc)

I wish more
money to
improve school
buildings and
develop more
projects.

ask parents and other stakeholders to be sponsors

Church helps sometimes
local community - sponsors
Some governments - etc.

Approach parents and other stakeholders to be sponsors

• We as educators empower our students.

• every drop adds to the 'bucket'

• By learning every day we are making a better future.

• Teachers are SUPERHEROES.

• Being a better person

* Cooperation in a school is the key to making a better future.

Agree

Believe in their power and make them believe.
It's important if at least a drop adds to their bucket
Give them hope and tools to fight → MAKE THEM FIGHT FOR A BETTER WORLD

Agree

Believe in their power and make them believe.
It's important if at least a drop adds to their bucket
Give them hope and tools to fight → MAKE THEM FIGHT FOR A BETTER WORLD

I wish I had
the power to make
a better future!

• Everyone has a power to make

• Everyone has a power to make a better future

* Focus on your sphere of influence - you can't influence certain things (politics etc)

↓ circle of influence
(books)

• Be a good example - kids watch!

Human rights' education

Democracy for active citizenship.

Making them active, powerful to fight for a better future

Don't hesitate to ask

* Don't worry about making mistakes

Making schools more independent and important factors of society.

Changing the world
starts from
changing your mind!

Feeling more
powerfull and
motivated
Stop thinking
about problems
because their
always exist

- be a power
- make the
change

Need to
change the
curriculum of
Greek System

Nothing
can stop
me ☺

Inspiration

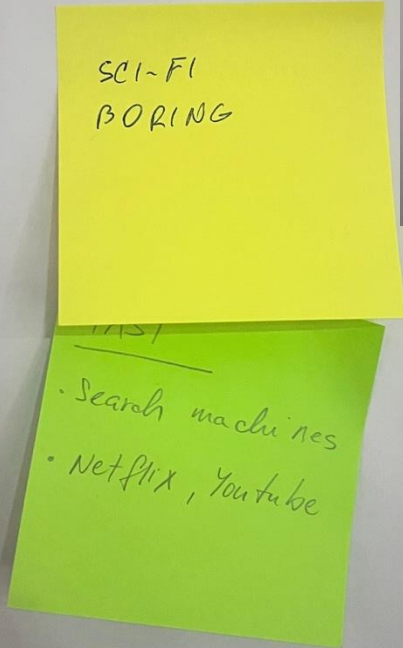

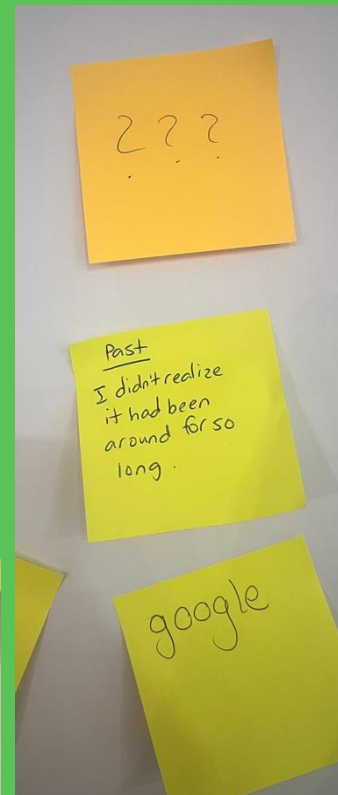

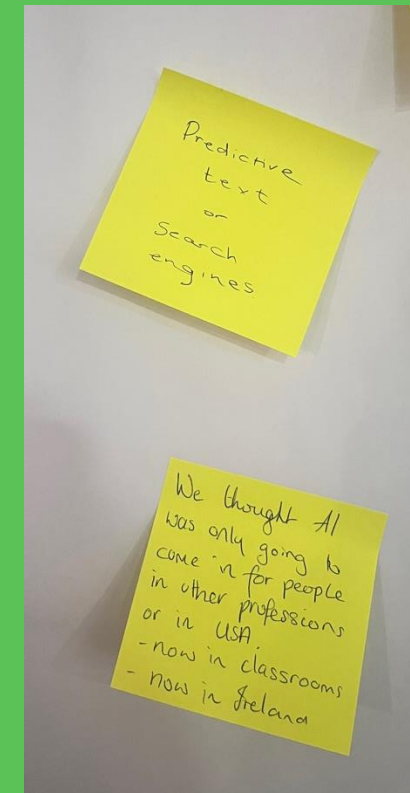

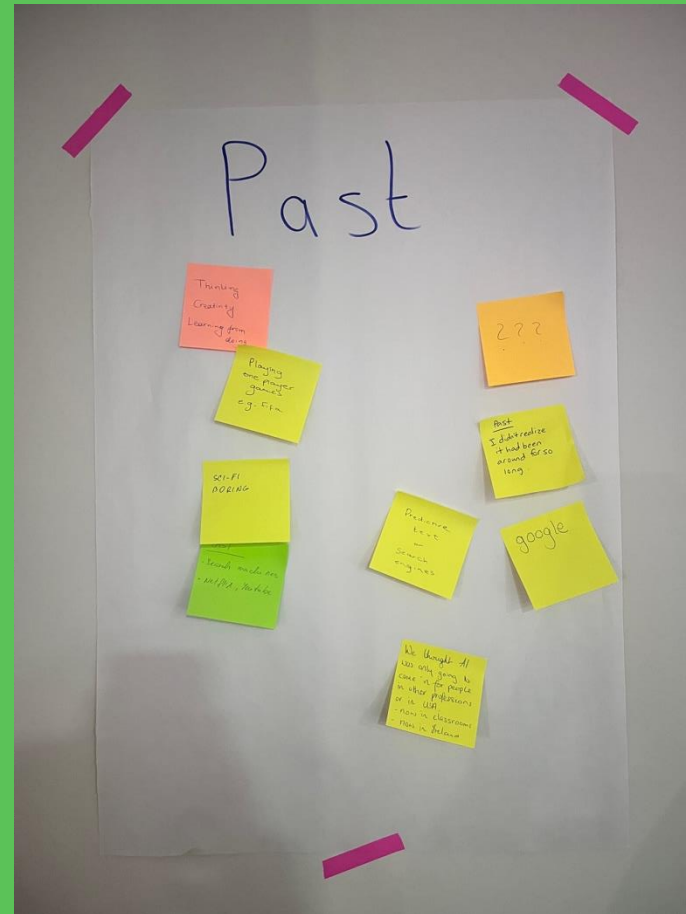

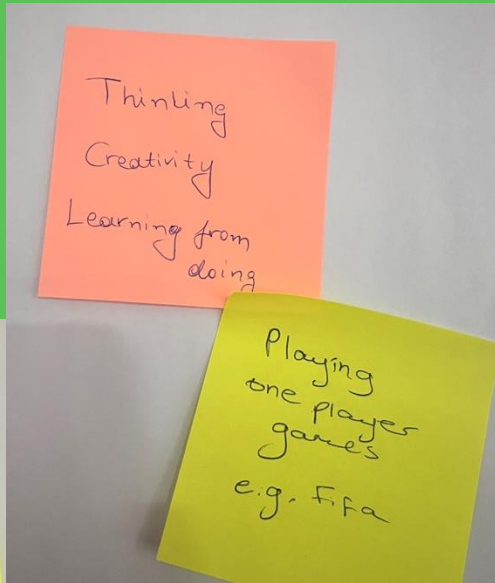

Window of opportunities

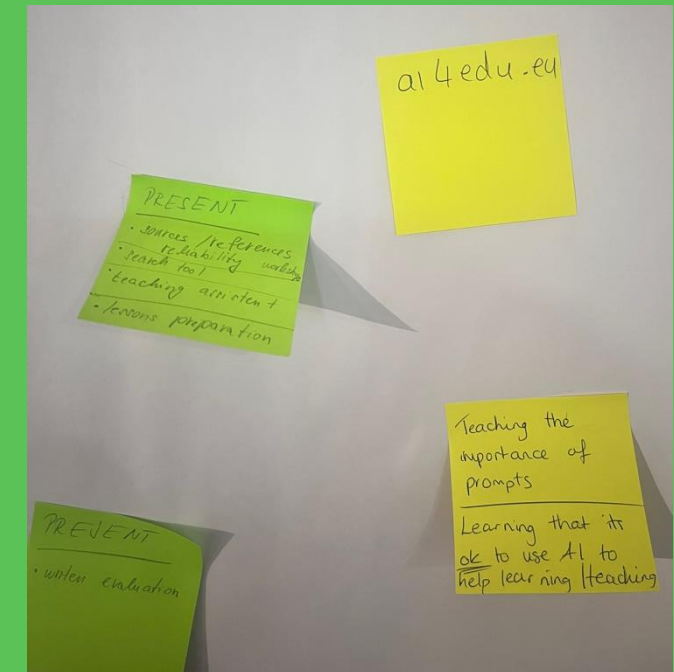

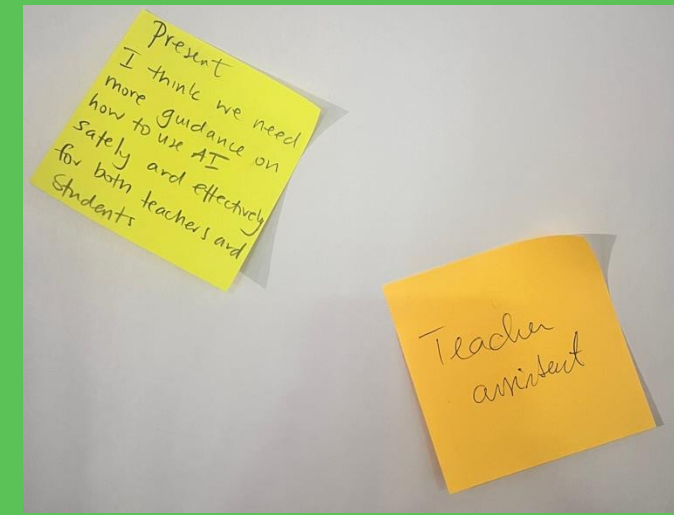

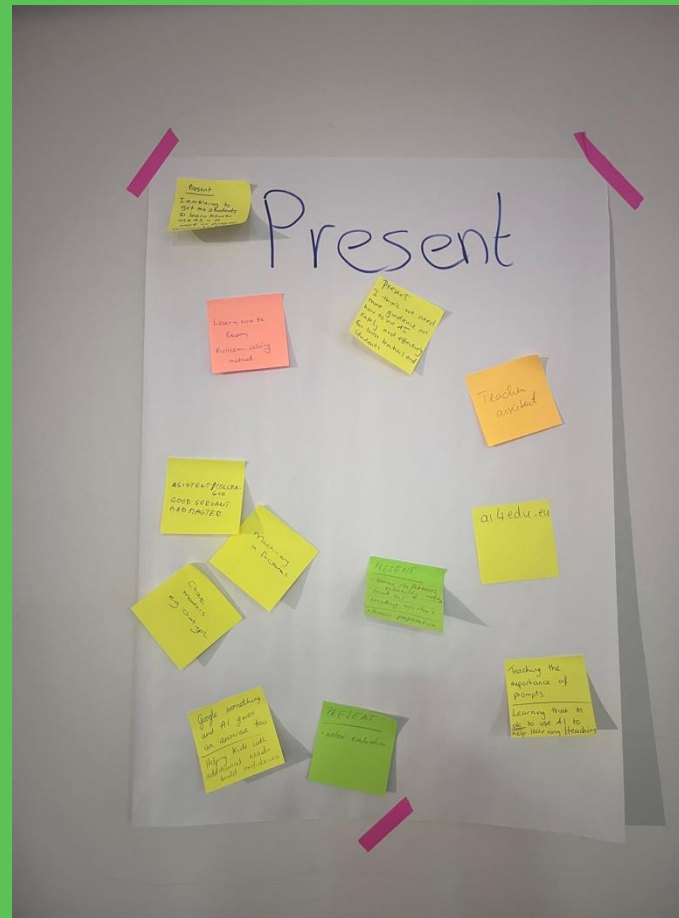

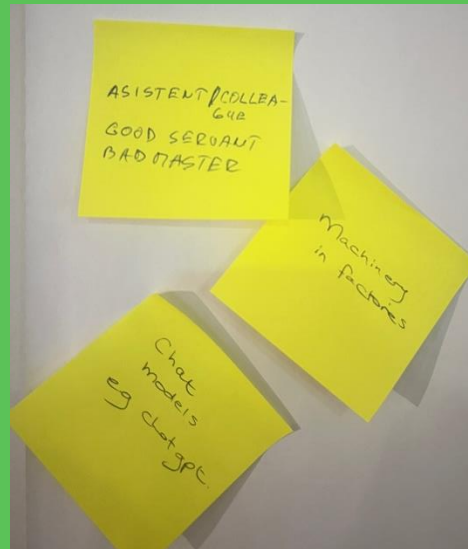

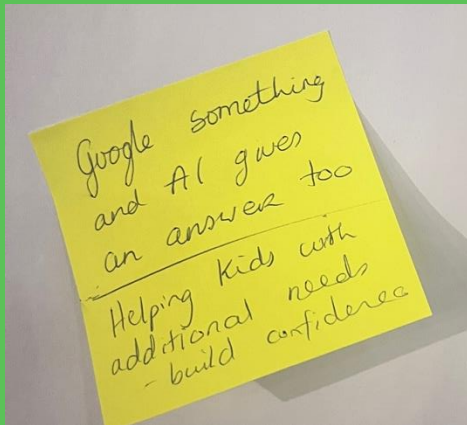

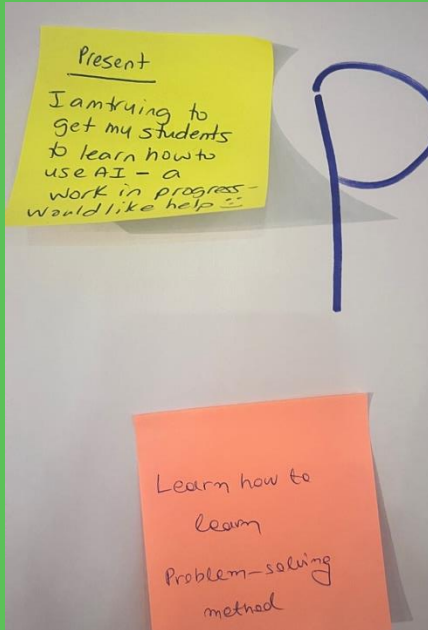

AI – Past Present Future

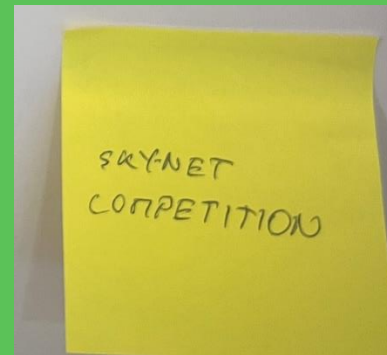

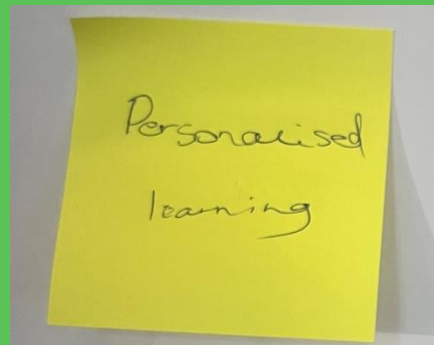

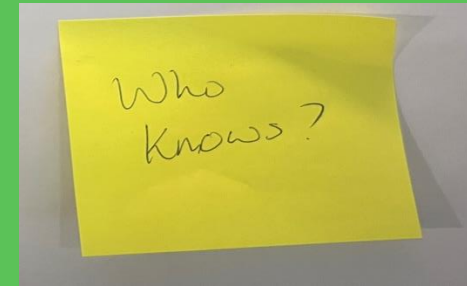

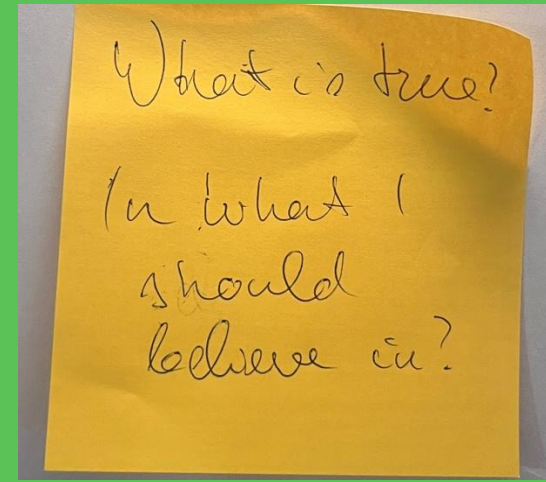

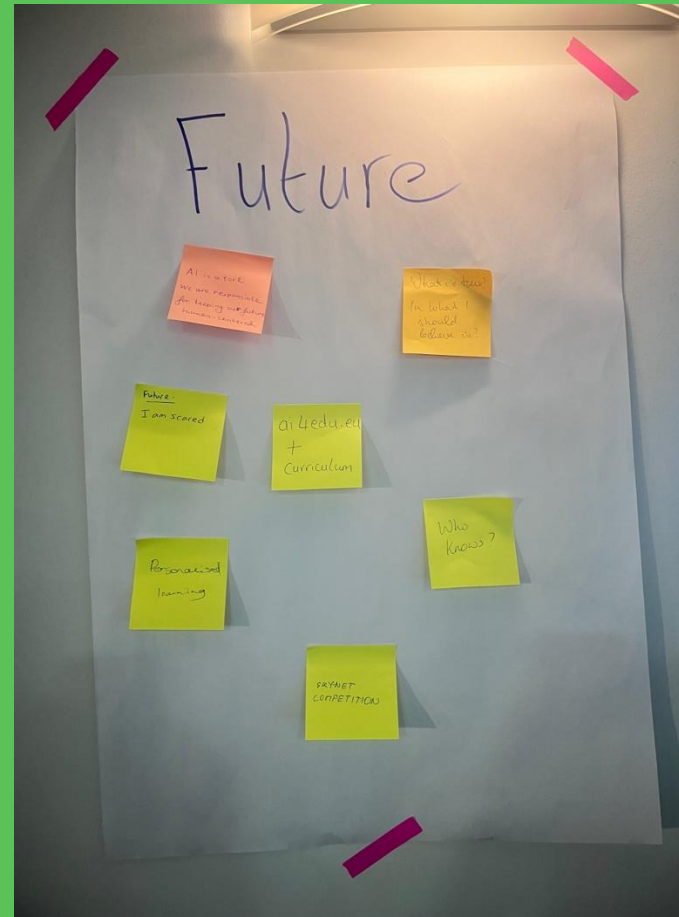

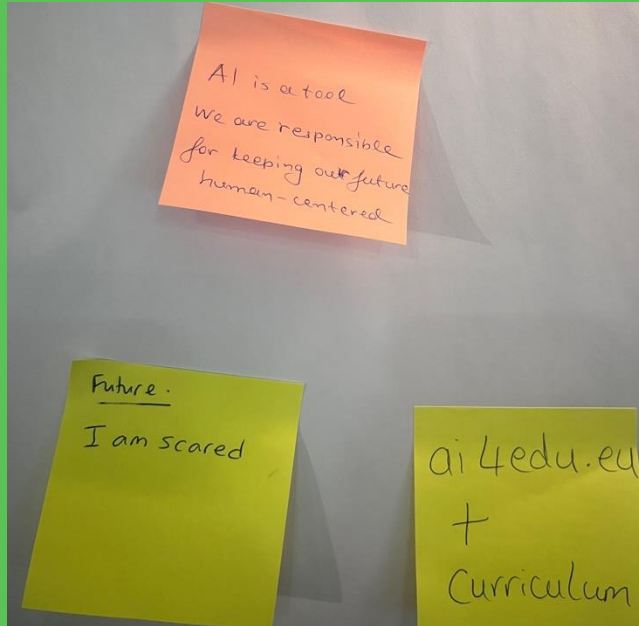

AI - Past

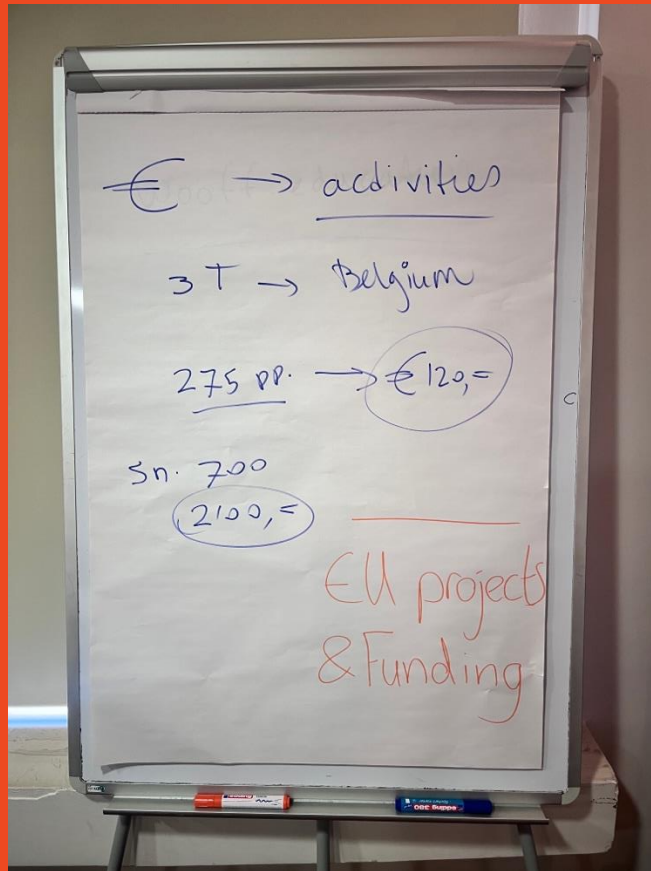

AI - Present

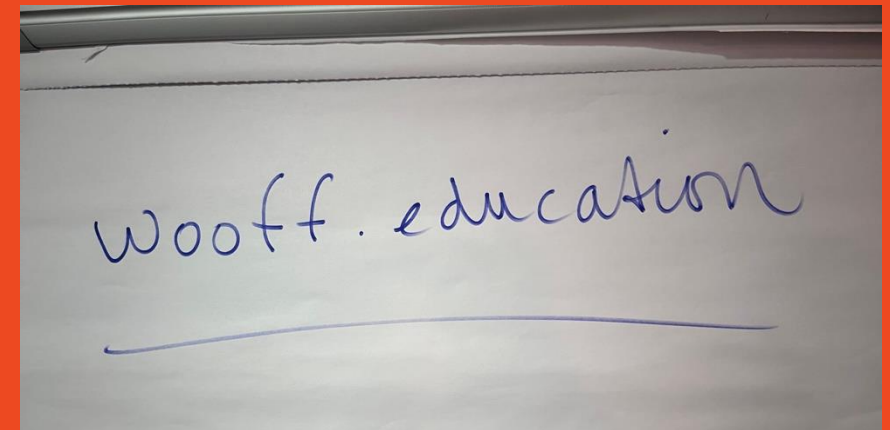

AI - Future

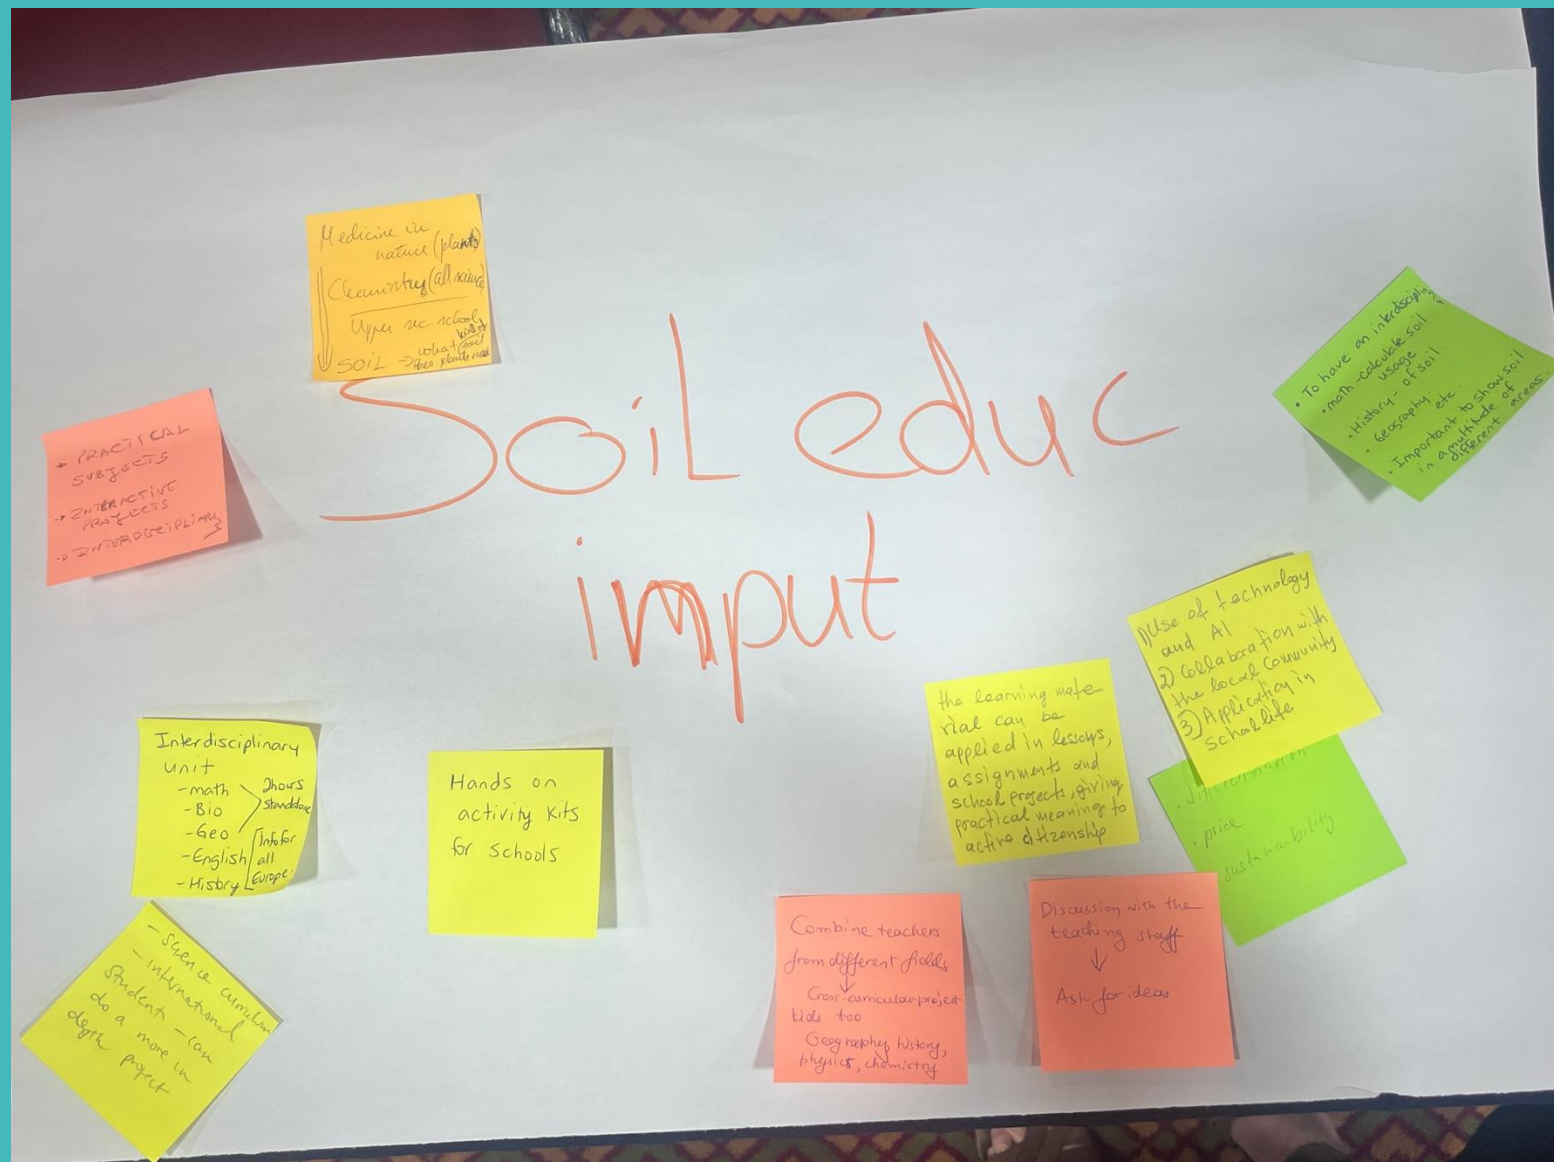

KA1 Funding opportunities & Partnerships

When you receive EU funding and spend this wisely, you can be left with 'spare' money. You do not need to pay this back. This may free up space in your school budget.

KA2 Project example

- PRACTICAL SUBJECTS
- INTERACTIVE PROJECTS
- INTERDISCIPLINARY

Medicine in nature (plants)
 Chemistree (all science)
 Upper secondary school
 SOIL → what ^{kind of} soil these plants need

- 1) Use of technology and AI
- 2) Collaboration with the local community
- 3) Application in school life

- To have an interdisciplinary
 - math - calculate soil usage
 - History - of soil
 - Geography etc.
- Important to show soil in a multitude of different areas.

Interdisciplinary unit

- math	} 2 hours standalone
- Bio	
- Geo	
- English	
- History	

[Info for all Europe]

Hands on activity kits for schools

the learning material can be applied in lessons, assignments and school projects, giving practical meaning to active citizenship

Discussion with the teaching staff
 ↓
 Ask for ideas

- Differentiation
- price
- sustainability

- Science curriculum
 - International Student - can do a more in depth project

Combine teachers from different fields
 ↓
 Cross-curricular project kids too
 Geography, history, physics, chemistry

SYNAPSES

Website

Thank you all for this
inspiring week.
